Powersport engines are some of the most powerful for their size. This reality creates a lot of pressure and stress on all components, including oils and lubricants. Finding the right balance between lubrication and durability is hard, but that's exactly what you'll find in every XPS bottle. Our chemistry evolved over thousands of testing hours to deliver power and durability like only XPS can.

XPS

OIL THAT GOES THE DISTANCE

XPS OILS

Developed as an integral part of the engine and vehicle, XPS lubricants don't settle for a certification. Always looking for more power and torque is in our DNA. This quest for performance created our need for specifically engineered lubricants.
